4. Hybrid Working Trials - Ally (10 mins)

Ally advised that offices are open with the reduction of restrictions and colleagues are welcome to work in the offices.

The trials have a soft launch next week to primarily allow manager access to the buildings to familiarise themselves with the space. Colleague roadshows are currently underway in preparation to inform colleagues what these trials will look like, how to use booking tool and how it will work.

[REDACTED] asked with social distancing still in place is Agnes Husband House being used? Ally advised Dundee House, Agnes Husband house and Glasgow High Street are being used. When restrictions are eased we will be mindful of safety of our colleagues and safely increase capacity of the buildings as and when appropriate.

[REDACTED] asked how we will you evaluate the trials when the restrictions are still changing?

Ally advised colleague satisfaction, culture, value for money and client evaluation are the key themes that will be evaluated, and we will be continually evaluating hybrid working after the trials.
