

Audit and Assurance Committee

The author must complete this page before submitting the paper to the Business Support Office.

Publication

To demonstrate openness and transparency, all governance group papers will now be published on the website of Social Security Scotland. All governance group papers should be written in line with the Writing for Publication Guidance.

Papers which contain sensitive information which should not be published must set out the reasons why. The author must identify the relevant exemption which should apply. The exemption should be stated in the section below, with the reasoning for this decision. Please speak to the Data Protection and Information Governance team before submitting your paper if you are unsure which exemption may apply.

1. I am aware that this paper may be published in the public domain and I am content for the information to be published. ☐
2. I believe information in this paper should be withheld from publication and that an exemption applies. ☒

2.1. Please state the exemption and explain your reasoning:

Para 2.1: Section 27 (1). This data is due for future publication.

Para 2.18: This figure is indicative and based on identifying costs that would have accrued through extra staff numbers needed to achieve the processing times being realised through Approach to Performance. No actual savings against budget have been made at this stage.

Paper Summary for Website Publication (max 100 words)

This paper is the latest iteration of a regular report from People Services to Executive Advisory Body. It provides information and an update on a range of People related topics and the work being undertaken by People Services teams.

Paper authors should write a short paragraph here to summarise the content of the paper.
